NEWSPAPERWOMAN EILEEN SHANAHAN RECEIVES GW ALUMNI ACHIEVEMENT AWARD

WASHINGTON, D.C. -- Eileen Janet Shanahan, senior assistant managing editor of The Pittsburgh Post-Gazette, was honored with George Washington University's Alumni Achievement Award during GW's February commencement. Shanahan, named this year and in 1974 as a member of the Pulitzer Prize jury, holds a Bachelor of Arts Degree from GW's Columbian College of Arts and Sciences (1944).

The first woman ever to serve on the advisory committee of the Neiman Foundation, Shanahan was named the New York Women in Communications' "Newspaper Woman of the Year" in 1972. She was assistant secretary for public affairs in the Department of Health, Education and Welfare from 1977 to 1979 and special assistant to the Assistant Secretary, Department of the Treasury, from 1961 to 1962.

U.S. ARMY CHIEF OF STAFF RECEIVES GW ALUMNI ACHIEVEMENT AWARD

WASHINGTON, D.C. -- Gen. Edward C. Meyer, United States Army Chief of Staff, was honored with George Washington University's Alumni Achievement Award during GW's February commencement. General Meyer holds a Master of Science in International Affairs from GW (1967).

In 1979 General Meyer became the 29th Chief of Staff of the Army. During his military career, which began with his graduation from the United States Military Academy in 1951, he received numerous medals, citations and decorations including the Silver Star with one oak leaf cluster, the Legion of Merit with two oak leaf clusters, the Bronze Star Medal with V device (with two oak leaf clusters), the Purple Heart, the Air Medal (35 awards), and the Republic of Vietnam Cross of Gallantry with Palm and with Silver Star.

He lives in Ft. Meyer, Va., and was born in St. Mary's, Pa.

INTERNAL REVENUE SERVICE COMMISSIONER RECEIVES GW ALUMNI ACHIEVEMNT AWARD

WASHINGTON, D.C. -- Roscoe L. Egger Jr., Commissioner of the Internal Revenue Service, was honored with George Washington University's Alumni Achievement Award during GW's February commencement. Egger received a Bachelor of Laws from GW in 1950.

President Reagan nominated Egger to be Commissioner of the Internal Revenue Service in January 1981. His professional activities include service as one of seven private-sector members on the Commission on Administrative Review of the House of Representatives, charged with evaluating the House's administrative operations. He has been a member of the Board of Directors of the U.S. Chamber of Commerce and has been active on Chamber committees on taxation and government. He earned his B.S. from Indiana University in 1942.

FOR IMMEDIATE RELEASE

THE STATUS OF WOMEN IN EASTERN EUROPE

WASHINGTON, D.C. -- "Those of us who study the status of women continue to be struck with the universal nature of their problems," said George Washington University Women's Studies Academic Coordinator Phyllis Palmer at the conclusion of a recent three-day conference on the status of women in Eastern Europe sponsored by GW's Sino-Soviet Institute. It was perhaps the most comprehensive look at the subject yet attempted.

Organized by GW Assistant Professor of International Affairs and Political Science Sharon Wolchik, the conference brought together 50 sociologists, historians, economists, anthropologists and political scientists from all over the world, some of whom were nationals of the countries being considered, to deliver papers and discuss the status of Eastern European women in terms of work, family, and public policy.

The socialist countries of Eastern Europe--Poland, Hungary, Czechoslovakia, Yugoslavia, East Germany, Romania, Bulgaria and Albania--exist in a political and socio-economic structure different from the West where women enjoy at least the legal,

(more)

constitutional underpinnings of equal rights as well as more extensive child care facilities and liberal maternity benefits. But the problems of women, different in degree, sound a familiar Eastern ring...unequal pay, occupational segregation, discrimination through the educational system, and the double burden of work and responsibility for child care and housework.

This inequality persists despite the fact that the ranks of working women in East European countries grew dramatically after World War II when women workers were needed for industrialization and that women make up the largest percentage of workers in these countries. In Yugoslavia, 50 percent of the work force is female; in Romania and Poland, 77 percent; Czechoslovakia, 78 percent; Hungary, 83 percent; Bulgaria, 87 percent; and East Germany, 90 percent--one of the highest rates in the world and more than the percentage of men employed in the U.S.

The majority of women who work have children. It is their role as members as well as procreators of the work force that sets up personal and social conflict. It is also the state's need for women to fill both these roles that makes adequate child care and economic support of child birth necessary.

In East Germany, regarded as the most advanced country in the bloc, 60 percent of children attended nurseries in 1977 and nearly 90 percent attended kindergarten. Overcrowding and excessive demand for these facilities exist in all East European countries.

Maternity leave with nearly full pay is the rule in Eastern Europe, according to Bogdan Mieczkowski of Ithaca College.

(more)

In Poland, 16 weeks is allowed for the first child and 18 weeks with each successive child. In East Germany, six weeks of prenatal leave is granted, followed by 20 weeks of maternity leave. In Czechoslovakia and Hungary, working women are provided 22 weeks of maternity leave.

Although women workers are constitutionally guaranteed equal pay, numerous scholars noted that they do not have equal pay or equal status in the work place. Employers appear to value men as workers more than women, and women's wages are lower than men's even if they hold the same jobs and are better educated.

Women's income in Hungary is slightly more than half of men's (about the same as in the U.S.), according to Ivan Volgyes of the University of Nebraska, and three times as many women as men live below the poverty level. In Yugoslavia women earn on the average 80 percent of the average male wage.

One reason for this inequality is occupational segregation, a phenomenon that begins in the educational system where women are encouraged to train for "traditional" areas such as teaching and nursing which, because they are filled predominantly by women, have low average wages. The majority of women in these countries remain clustered in low income, low prestige jobs with little or no participation in decision-making. They are similarly excluded from exercising political power.

The "double burden" of women--that is, working outside the home while continuing to have sole or primary responsibility for household duties and child care--was a recurring theme at the

(more)

conference. "Women's personal lives remain encumbered by traditional sex roles," said Gail Kligman of the University of Chicago.

According to an East German survey presented by Lisa Kahn of Texas Southern University, 64 percent of working women are solely responsible for housework and 78 percent said they took care of the children when they became ill. Another study of East Germany found an average of 47 hours a week was spent on housework (another full work day after paid work), 78 percent of which is assumed by women. One can only speculate that these figures are probably higher in less advanced countries.

Social services for women make them better workers and encourage them to have children, but they do not change the division of labor in the family, many concluded. But how far can government go in touching personal lives? Ingunn Norderval of Norway asked, "Why are governments willing to order men to kill and maim but not willing to tell them to change a few diapers?"

"Socialist ideology, like capitalist ideology, is not accomplishing equality," concluded one observer. The women's movement as we know it in America, operating outside the government, does not exist in the closed, authoritarian societies of Eastern Europe where it is difficult to organize independent groups. Policy toward women is determined largely by the ruling elites and challenges to the existing system are not allowed.

"Gender is a weak influence for political mobilization in Eastern Europe," said Jean Quataert of the University of Texas at

(more)

Houston. "Class and national ties are stronger, because women have learned to feel guilty about putting their needs first."

Despite recent interest in feminism in Poland and Yugoslavia, another participant said, "Demands for change in Eastern Europe will not be couched in feminism. There will more likely be a revolt in a bread line." Although the problems of Eastern European women resemble those of women in other societies, Dr. Wolchik agreed, "The means for changing women's status will undoubtedly differ in these countries from the West."

The conference on the status of women in Eastern European countries was funded by the Joint Committee on Eastern Europe of the American Council of Learned Societies and the Social Science Research Council, with additional support from the Ford Foundation, the National Endowment for the Humanities and the International Research and Exchanges Board.

GW BUSINESS STUDENTS TRADE FUTURES CONTRACTS

WASHINGTON, D.C. -- George Washington University business students are trading futures contracts based on the Dow Jones Industrial Average. Investments Association, a student group in GW's School of Government and Business Administration, organized the trading to give students an understanding of how futures markets work.

"Basically it's fun, and it allows students to make a profit or loss and be responsible for that gain or loss," said Dan Dudley, president of the student group. While the most student traders can lose is \$2, they still work hard to beat the market.

"We find that trading in these contracts under controlled conditions helps students see how the markets work," said William Margrabe, assistant professor of business administration. Margrabe devised the trading format used by the Investments Association and teaches finance courses on futures and options. "The trading goes far beyond the usual classroom presentation, hands-on experience," he said. "Our market gives the students a glimpse of how the professionals play the game in Kansas City, Chicago and New York."

Stock-index futures contracts allow buyers and sellers to wager on where the stock market will be by year-end. At the Kansas City Board of Trade it is a high-risk, speculative investment. At the GW Board of Trade it is an educational experience for finance students. As one student observed, "There's nothing like having a little of your own money on the line to get your undivided attention."

MEMO TO EDITORS

RE: IN CELEBRATION OF CHANCE: A BELATED POISSON BICENTENNIAL AT GW

Siméon Denise Poisson, the French statistician and mathematician born in 1781, pioneered research in predicting rare events. His work impacted on the French system of justice and the biological and physical sciences of the day and is still one of the keystones of modern mathematics, statistics and engineering.

March 15 George Washington University, the Washington Statistical Society and the French Embassy will celebrate the bicentennial of Poisson's birth with a program at GW.

Morning sessions begin at 9:15 a.m. and include--

"Poisson, the Calculus of Probability and Public Education"
Bernard Bru, Professor, Laboratoire de Calcul des Probabilités
Université de Paris

"Poisson's Models for Jury Behavior"
Herbert Solomon, Professor of Statistics, Stanford University

The afternoon program begins at 1:15 p.m. and includes--

"Some Statistical Applications of Poisson's Work"
Irving J. Good, University Distinguished Professor
Virginia Polytechnic Institute and State University

"Poisson's Legacy in the Biomedical Sciences"
Max Woodbury, Professor of Biomathematics and Computer Science
Duke University

"Poisson's Contributions to the Theory of Elasticity"
Raymond D. Mindlin, Professor Emeritus of Applied Sciences
Columbia University

The program will be held in Dorothy Betts Marvin Theater in the Marvin Center, GW, 21st and H Sts. NW, Washington, D.C.

GW DIMOCK GALLERY -- ANNUAL AWARDS SHOW

WHAT: ANNUAL AWARDS SHOW INCLUDING DAVID LLOYD KREEGER AWARDS COMPETITION

WHO: GW SENIORS AND GRADUATE STUDENTS IN ART

WHEN: THURSDAY, APRIL 1, THROUGH FRIDAY, APRIL 23
10 A.M. TO 5 P.M. WEEKDAYS

WHERE: DIMOCK GALLERY, ART DEPARTMENT
GEORGE WASHINGTON UNIVERSITY
OFF THE LOWER LOUNGE OF LISNER AUDITORIUM
21ST AND H STREETS, N.W.

* * * * *

WASHINGTON, D.C. -- Works of George Washington University seniors and graduate students in art will be on exhibition in the GW Dimock Gallery from Thursday, April 1, through Friday, April 23, in GW's Annual Awards Show, which includes the David Lloyd Kreeger Awards Competition.

Awards will be given for ceramics, sculptural ceramics, drawing, design, painting, photography, print making, sculpture, papers in art history and visual communication. Works for the exhibition will be selected and awards designated by a panel of outside professionals in the arts.

Donors for the awards include David Lloyd Kreeger, the Franz Bader Gallery Inc., Dr. and Mrs. Jerome Canter (who give the Morris M. Aein Memorial Prize in Drawing), Robert N. Alfandre, Julian J. Singman, Esq. William C. Barbee, Ginns Muth Company, and Dr. and Mrs. Joseph Friedman (who give the Hayes Friedman Painting Prize, a purchase prize which enables the university to add to its permanent collection).

The Dimock Gallery, off the lower lounge of Lisner Auditorium, 21st and H Streets, N.W., is open to the public from 10 a.m. to 5 p.m. weekdays.

FOR IMMEDIATE RELEASE

NEW SPECIAL EDUCATION PROGRAM OFFERED AT GW

WASHINGTON, D.C. -- A new graduate special education program for liaison special educators who work with children who have hidden handicaps or chronic illnesses such as heart disorders, cancer, leukemia, etc., is being offered by George Washington University's School of Education and Human Development.

The education and family life of health-handicapped children are interrupted by frequent and long-term complications resulting from their health problems. School absences are common occurrences, resulting in a break in school routine, educational curriculum and peer relations. With each school interruption, pressures to catch up are immense. These children are often incorrectly labeled learning disabled, underachievers or emotionally disturbed.

This program interfaces classroom theory with clinical facilities at a medical center and prepares special education professionals with an inter-disciplinary core of knowledge to provide:

- liaison services among family, school and medical personnel
- integrated community support services
- training for school personnel in management strategies to promote academic and social adjustment

- educational assessment
- access to educational programs for in-patients
- opportunities to develop parent support teams

For more information, contact Dr. Maxine Freund at (202) 676-6170.

RE: GW OLYMPICS

George Washington University students, alumni, faculty, administrators and employees will engage in friendly competition in the first GW Olympics on Friday through Sunday, March 26-28, in various locations across the campus. The events include pool shooting, egg tossing, "Ultimate Frisbee," a three-legged race and a wheelbarrow race.

Sponsored by the GW Student Association, the olympics features prizes for winning teams, including \$200 awarded to the faculty, administration or alumni team finishing first. This prize must be used as a scholarship to benefit future GW students.

For information on specific event locations and times, contact GW Olympics Coordinator Doug Morris at (202) 676-7100.

RE: CHILDREN'S POSTERS ON DISPLAY AT GW LIBRARY

Posters by children from the Sharpe Health School in Washington will be on display April 1 through 30 in George Washington University's Gelman Library, second, third and fourth floors, 22nd and H Streets, NW. The posters are based on the theme of this year's National Library Week (April 5-11): "A Word to the Wise--Library."

Posters from Sharpe Health School--which serves mentally retarded, emotionally disturbed and physically handicapped elementary school students--were selected for this exhibit by GW's Friends of the Libraries.

A recognition reception for the children whose posters are selected will be held Wednesday, April 7, from 11 a.m. until noon in library room 202. At this time the Friends of the Libraries will present Sharpe Health School with a special gift in appreciation of the children's contributions.

For information call GW Dean of Students Gail Short Hanson at 676-6710.

MEMO TO CALENDAR EDITORS

RE: AN IMAGINARY CONVERSATION WITH J.R.R. TOLKIEN & C.S. LEWIS AT GW

George Washington University English faculty members will portray fantasy writers J.R.R. Tolkien and C.S. Lewis in imaginary conversation on April 14 at 8 p.m. in GW's Marvin Center, third floor ballroom, 21st and H Streets, NW. This event is free and open to the public.

Robert C. Rutledge, assistant dean of GW's Columbian College of Arts and Sciences, will moderate between Tolkien, played by Associate Professor Gregory Ludlow, and Lewis played by Professor William Reynolds.

This presentation is part of the First Wednesday Lecture Series, held monthly and sponsored by GW's Alumni Relations Office. In order to avoid conflict with the Jewish holiday it is being held the second Wednesday in April. For information and reservations, call 676-6435 at least a day in advance.

PUBLIC SERVICE ANNOUNCEMENT
FOR BROADCAST THROUGH APRIL 13, 1982

AN IMAGINARY CONVERSATION WITH J.R.R. TOLKIEN & C.S. LEWIS AT GW

(25 seconds)

Did you ever wonder what it was like when fantasy writers J.R.R. Tolkien and C.S. Lewis got together and talked? Find out April 14 at 8 p.m., when GW English faculty portray just such an imaginary conversation in George Washington University's Marvin Center, third floor ballroom, 21st and H Streets, NW. This event is free and reservations can be made by calling GW's Alumni Relations Office at least a day in advance at 676-6435. That's 676-6435.
